

No One Like Me

Lustra

If you tell me I should
Maybe I could just pretend
And if you cover your eyes
Maybe it'll long live
So you cover your eyes and you're looking half drunk
Gather up everything you had and everything you lost

I'm saying I'll waste my time with you
If there's only even something we could do
And I
I had a dream that I
I cut my arms and died
I cut my arms and died
And you'll start to see there's no one left like me
There's no one left like me

I'm saying I'll waste my time with you
If there's only even something we should do
And I
I had a dream that I
I cut my arms and died
I cut my arms and died
And you'll start to see there's no one left like me
There's no one left like me

I still waste my
I still waste my
I still waste my time with you now
I still waste my
I still waste my
I still waste my
I still waste my
I still waste my
I still waste my
I still waste my
I still waste my
I still waste my
I still waste my
I still waste my
I still waste my
I still waste my time with you
