

Obsession

Lustra

You are an obsession (obsession)
I cannot sleep on your possession (on your possession)
Hoping that your beat is no balance (there's no balance)
No equality, but still I will not accept defeat

I'll have you, yes I'll have you
I'll find a way, and I'll have you
Well above that, well above that
I will collect you and capture you

You are an obsession, you're my obsession
What do you want me to be, I'll make you sleep with me
You are an obsession, you're my obsession
What do you want me to be, I'll make you sleep with me

I'll eat you, I'll drink you, by day and by night
I need you, I need you, so set a candlelight
You protest, you wanna leave
But stay one night I'll turn to you

You face the peers again
I see the beauty there
But I see danger, stranger beware
I'm [?] in your next dreams
Your recollection is not wanna sleep

You are an obsession, you're my obsession
What do you want me to be, I'll make you sleep with me
You are an obsession, you're my obsession
What do you want me to be, I'll make you sleep with me

And now my fantasy (all my fantasies) has turned to madness (has turned to madness)
And all my goodness (all my goodness) has turned to badness (has turned to badness)
My need to possess you have turned too much, oh
My life is jumping (out of control)

I'll have you, yes I'll have you
I'll find a way, and I'll have you
Well above that, well above that
I will collect you and capture you

You are an obsession, you're my obsession
What do you want me to be, I'll make you sleep with me
You are an obsession, you're my obsession
What do you want me to be, I'll make you sleep with me
