

Life

Lute

My daughter called me crying
Said she missed me, so I just cried with her
Some days I get caught up in the mix, but I'm still a real nigga
If you want it, then go get it, that's how the rich get richer
Niggas yellin' put them on, but never really get the picture
'Cause, shit, I fight for this
Nearly gave half my life for this
Some days I feel like I'm just right for this
Then a rap nigga show me just how really wack the cycle is
My music like a gif, 'cause niggas askin' "what do I type for this?"
Only person that I'm up against is me
I'm hella humble, don't mistake, that shit as weak
Show my daughter if she fall, it's cool, just get back on your feet
I'm here to give you all these tools and then my life will be complete
Show you what you dream is true and what you want in life and reach
And now I gotta take a look at me and practice what I preach
You are who you wanna be
And now I gotta take a look at me and practice what I preach

Sometimes life gets crazy
Some days I don't know up from down
(Some days I don't know up from down)
Life gets so crazy
But I can't turn my back right now

Time waits for no man
I'm livin' life like the first time I slow danced
I probably make mistakes, but I'm still in the moment
If I fuck up then I own it
If it's me against myself, then who really my opponent?
See, you don't get it, some things just be fuckin' with my spirit
I'm just a lil' overwhelmed, my mom can hear it in my lyrics
But this the life I chose, so I continue with the vision
I stay true to self, and mind more of my business
Drink a little bit more water, plus my hair done grew some inches
Bedtime stories to my daughter 'bout how I grew up in the trenches, yeah, yeah
ah
Hard body, ain't no flinchin', gotta get it how you live it
Who you are don't make a difference, yeah, yeah
So never get it twisted, life gon' knock you off your pivot
Keep your balance is the mission, yeah, yeah
Put yourself in the position, stack your losses and your winnings
I be back in just a minute, yeah, yeah

Sometimes life gets crazy
Some days I don't know up from down
(Some days I don't know up from down)
Life gets so crazy
But I can't turn my back right now
Sometimes life gets crazy
Some days I don't know up from down
(Some days I don't know up from down)
Life gets so crazy
But I can't turn my back right now
