

# Money

Lutricia McNeal

Just hear me out when I'm talking  
I got something inside and I'm so suprised  
That you're really trying to buy me  
Just tell me what do you think that  
You are achieving  
Who needs a ring when it's not for real, babe  
I'd rather be with someone who needs me  
I wanna live with a love oh so true babe  
I won't be bothered by someone who  
Has to pay  
Just live for the day  
I don't need, none of your money  
Cause money money money babe  
Won't make me your honey baby no  
Don't want your money  
Listen up now sugar  
Where I come from money's what we burn  
Don't want your money no  
It's just another reunion  
I can't believe what you tell me I'd  
Rather be lonely  
I met your kind and it's nothing  
That I wanna spend time on  
I've been there it's so wrong  
I can assure you that I won't be there  
For someone that have to brag  
To ease me  
I won't travel the world all over  
If he's not man just to say  
Just live for the day  
I don't need, none of your money  
Cause money money money babe  
Won't make me your honey baby no  
Don't want your money  
Listen up now sugar  
Where I come from money's what we burn  
Don't want your money no  
It's a pathetic way to try to use my mind  
Just a face without expression faking lies  
I don't need, none of your money  
Cause money money money babe  
Won't make me your honey baby no  
Don't want your money  
Listen up now sugar  
Where I come from money's what we burn  
Don't want your money no
