

Lipstick

Luvcat

All dolled up in straps
With no nice place to go
Because no fucker asked
Me to the rodeo
I can be your cowgirl
Or your stewardess
Or your bedside nurse
Moppin' up your sweat

Wind the key, I'll do a dance
It's all a dream, I'm in a trance

So come kiss
Come kiss off all my lipstick
Tight fit
The perfect little doll to play with
So come play with me, oh

I want to be your favourite
I'll kill all the rest
Take their long blonde plaits
And tie them 'round their necks

Wind the key, I'll do a dance
It's all a dream, I'm in a trance

So come kiss
Come kiss off all my lipstick
Tight fit
The perfect little doll to play with
So come play with me, oh
Come play with me

And when I am malfunctioning, promise that you'll call
And visit me on Smithdown Road in the doll hospital
And when I've finally given in
Break me down for parts
And you can give my eyes and limbs
To the old junkyard
Just keep my sweet heart safe in a jar
Keep my sweet heart safe in a jar
Safe in a jar
Safe in a jar
Safe in a jar
Safe in a jar

And come kiss
Come kiss off all my lipstick
