

Don't you lose your hope on me
Don't you lose your hope on me
Don't you lose your hope on me

Speak
To my face, I need to listen
Make it hurt so I can learn from it
You won't have to tell me twice
I sense
That our energy is different
I wanna fix it but I don't know how
Won't you open up my eyes?

You told me I left long time ago
No one knows where
But I'm not the one they loved
I am gone
I need to spend some time alone
To find out what's wrong

Move on, move on, let's go
Lo que no lo hagas tú ya lo hará otro mejor
Sólo ensayo y error
Gotta make it work, gotta make it work
Move on, move on, let's go
Lo que no lo hagas tú ya lo hará otro mejor
Sólo ensayo y error
Gotta make it work, gotta make it work

See
I was watching from a distance
Found a secret hideout from myself
I forgot how to behave
But now
Now I see the path is clear
I just had to see me face to face
To remember who I am

And I won't allow myself again to drown
I am the water all around
No more evading
I'm running out of time

Move on, move on, let's go
Lo que no lo hagas tú ya lo hará otro mejor
Sólo ensayo y error
Gotta make it work, gotta make it work
Move on, move on, let's go
Lo que no lo hagas tú ya lo hará otro mejor
Sólo ensayo y error
Gotta make it work, gotta make it work
Move on, move on, let's go
Lo que no lo hagas tú ya lo hará otro mejor
Sólo ensayo y error
Gotta make it work, gotta make it work
Move on, move on, let's go
Lo que no lo hagas tú ya lo hará otro mejor

Sólo ensayo y error
Gotta make it work, gotta make it work

And I won't allow myself again to drown
I am the water all around
No more evading
I'm running out of time

(And I promise
That I'm taking care
Yeah, I've got this
Thank you for your help
I am sorry
Don't you lose your hope on me)
