

Bad Trip

LVNDSCAPE

Just a taste, so dangerous
Said I can fly, but had too much
You say it's okay
But my eyes don't talk that way
Got every thought inside me burning through my mind
On replay, I can see no exits signs
And I can't feel my face
But then you say my name

No, I don't wanna be high anymore
High anymore, high anymore
Baby, don't let me hurt anymore
Hurt anymore, hurt anymore
No, I don't wanna be high anymore
High, high, high anymore
Baby, don't let me hurt anymore
Hurt, hurt, don't let me hurt anymore

I'm glad you're here to pull me 'round
My expectations are fading out
You say it's okay
Oh, we all make mistakes
Got every thought inside me burning through my mind
On replay, I can see no exits signs
And I can't feel my face
But then you say my name

No, I don't wanna be high anymore
High anymore, high anymore
Baby, don't let me hurt anymore
Hurt anymore, hurt anymore
No, I don't wanna be high anymore
High anymore, high anymore
Baby, don't let me hurt anymore
Hurt anymore, don't let me hurt anymore

No, I don't wanna be high anymore
High anymore, high anymore (High anymore)
Baby, don't let me hurt anymore
Hurt anymore, hurt anymore (No)
No, I don't wanna be high anymore
(Don't wanna be high) High anymore
(Don't wanna be high) Baby, don't let me hurt anymore
(Don't wanna be high) Don't let me hurt anymore
