

# Everyone's Lonely

LVNDSCAPE

Don't you sugarcoat it, only gets harder from here  
But you gotta dry your eyes, oh  
We all got battles that we're fighting, but I swear  
Come, baby, rise and shine

Don't you cry oh for the small things, oh nah nah  
We all got skeletons at home, oh nah nah  
And it's all out of a controlling, oh ah ah  
Don't wanna worry anymore, oh nah nah  
I don't wanna

Cover your scars, got you in this far, everyone's lonely  
Numbing the pain, dance it away, somebody told me  
Don't let the darkness pull you in, you got one life so go and live  
Cover your heart, tear you apart, everyone's lonely

Everyone's lonely  
Everyone's lonely

Hiding all the secrets that you keep under your bed  
Don't let the monster hear ya  
Screaming at the voices echoing inside your head  
Come, baby, rise and shine

Don't you cry oh for the small things, oh nah nah  
We all got skeletons at home, oh nah nah  
And it's all out of a controlling, oh ah ah  
Don't wanna worry anymore, oh nah nah  
I don't wanna

Cover your scars, got you in this far, everyone's lonely  
Numbing the pain, dance it away, somebody told me  
Don't let the darkness pull you in, you got one life so go and live  
Cover your heart, tear you apart, everyone's lonely

Cover your scars, got you in this far, everyone's lonely  
Numbing the pain, dance it away, somebody told me  
Don't let the darkness pull you in, you got one life so go and live  
Cover your heart, tear you apart, everyone's lonely

Cover your scars, got you in this far, everyone's lonely  
Numbing the pain, dance it away, somebody told me  
Don't let the darkness pull you in, you got one life so go and live  
Cover your heart, tear you apart, everyone's lonely
