LVNDSCAPE

Baby roll that fire, make enough for two  
We can burn desire, what we got to lose  
Every second we spend got me tripping  
I could die in this moment we're livin'

Smoke fills out the room  
Our lungs take in the fumes  
I love you even when we're gone  
As I hide out in your eyes  
I'm safe, I'm paralyzed  
There's nowhere else that I belong

'Cause with you  
It feels like home  
Feels like home  
And with you  
It feels like home  
Feels like home  
Oh with you

Sometime  
Sometime [?]  
With you

Be my heir tonight when you're in my play  
Make me feel so high, I'll never give you up  
I'ma let you inside and consume me  
Oh I got it so bad that I can't breathe

Smoke fills out the room  
Our lungs take in the fumes  
I love you even when we're gone  
As I hide out in your eyes  
I'm safe, I'm paralyzed  
There's nowhere else that I belong

'Cause with you  
It feels like home  
Feels like home  
And with you  
It feels like home  
Feels like home  
Oh with you

Sometime  
Sometime [?]  
With you

Smoke fills out the room  
Our lungs take in the fumes  
As I hide out in your eyes  
I'm safe, I'm paralyzed  
There's nowhere else that I belong

'Cause with you  
It feels like home  
Feels like home

And with you  
It feels like home  
Feels like home  
Oh with you
