

Lie To Me

LVNDSCAPE

Don't say the words, don't say goodbye
Till the morning, baby tell me lies
Kiss me like, it's the first time
Can we pretend that we're still own the night

These meadows made for two
Don't leave me here alone
Just another day or two
Stay with me, stay with me and
We can dance to our favourite song
Before the truth puts out the flame
Stay with me, stay with me

I need a little more time
If only just for tonight
Won't you lie to me, lie to me?
I know you letting me go
I'm holding on to you close
Won't you lie to me, lie to me?

I need a little more time
If only just for tonight
Won't you lie to me, lie to me?
I know you letting me go
I'm holding on to you close
Won't you lie to me, lie to me?
I need a little more time
If only just for tonight
Won't you lie to me, lie to me?
I know you letting me go
I'm holding on to you close
Won't you lie to me, lie to me?

We said some things
We didn't mean
Promises we couldn't keep
Empty space between the sheets
Twisted up in jealousy

These meadows made for two
Don't leave me here alone
Just another day or two
Stay with me, stay with me and
We can dance to our favourite song
Before the truth puts out the flame
Stay with me, stay with me

I need a little more time
If only just for tonight
Won't you lie to me, lie to me?
I know you letting me go
I'm holding on to you close
Won't you lie to me, lie to me?

I need a little more time
If only just for tonight
Won't you lie to me, lie to me?

I know you letting me go
I'm holding on to you close
Won't you lie to me, lie to me?

I need a little more time
If only just for tonight
Won't you lie to me, lie to me?
I know you letting me go
I'm holding on to you close
Won't you lie to me, lie to me?
