

That Feeling

LVNDSCAPE

What's that thing called when ya
When ya meet somebody
And you feel like you're walking on a cloud
And every step you've made all your life, wrong or right
Led you to this place
Right here, right now
You know it's like when you're at work
And you said to yourself
You know, I'm gonna have a good time, I'm gonna out
So you put on your favorite shoes
Or you put on your favorite jeans
And you get into the mood
And you pull up to the club
There's a long line but you don't care
Because you hear that "thump, thump, thump" outside those doors

And you get that feeling all over again
And you get that chill up your spine because
The DJ's playing your favorite songs
And you're not in yet but soon you know you're gonna be
Oh man, what's that feeling called again?

Man what's that called
When your heart starts beating faster and faster
And your feet keeps moving
And you know you should sit down but you can't because
What's that feeling called again?
