

# Walk Away

LVNDSCAPE

A cold and lonely went this day  
Around me only rain surrounded by the silence  
Can't find my way back, back to where I came from  
To that summer day when you just walked away

You took me to the lakeside  
That's where we'd meet  
Hanging by the orchards  
Sleeping under trees

We ran into the water  
My hands around your waist  
You were so much harder  
I was saying stay  
But you just walked away

You just walked away  
Yeah you just walked away

Try to hold on to the dream  
I'm painting all the scenes in which I still believe  
I found my way back, back to where we came from  
To that summer day when you just walked away

I'll take you to the lakeside  
That's where we will meet  
Hanging by the orchards  
Sleeping under trees

We'll go into the water  
My hands around your waist  
You're still so much harder  
But I'm still here to stay  
So don't you walk away

So don't you walk away  
You're still so much harder  
And I'm still here to stay  
So don't you walk away

So don't you walk away  
So don't you walk away  
So don't you walk away  
You're still so much harder  
And I'm still here to stay  
So don't you walk away
