

Deep Blue Sky

Lycia

I feel my life disintegrate
deep blue sky burns straight into me
I will take from you just everything, just everything
but not today, I seem to need some more time
I can not feel, I feel my life disintegrate again
I don't know, I don't know
I feel my life disintegrate
everything around me seems so distant and pale
everyone around me tries to understand, appreciate...
everything around me seems so lost and so frail
everyone around me tries to understand, appreciate
...my pain
