

## Hope Is Here

Lycia

Outside it's so cold and grey (ha, ha)  
Nothing but the wind and rain (ha, ha)  
But through this haze I hear her cry (ha, ha)  
She's coming back to be with me ...tonight  
Hope is here, she's close, she's near  
Hope is here, she's close, she's near ...and she's embracing me  
She's here, she's close, she's near

Hope is here, she's close, she's near ...and she's embracing me  
Quietly she stares at me (ha, ha)  
She calls me over to her side (ha, ha)  
Softly she caresses me (ha, ha)  
I sit there like a timid child ...and smile  
She will never ever leave ...never
