

Friends

Lydia

Hey, hey...

Yeah, do I got your attention?
Crawlin' the night with you
Whatever you feel like doing (yeah yeah yeah)
You keeping you head low
Like all of them lovers do
Wherever it feels like home

So make some colors, make it south
And I think it's time you found me out

Yeah, well I don't see my friends until the sun goes down
I don't hear a thing until the drugs run out
Yeah, well I don't see my friends until the sun goes down
I don't hear a thing until the drugs run out

And all I care
Someone I don't ever want to miss
And all I care
Someone I don't ever want to miss

Caught my attention
Here all alone with you
So whatever you feel like doing (yeah yeah yeah)
Out on the loose, darlin'
Like you know how to do
Wherever it feels like home

Yeah, well I don't see my friends until the sun goes down
I don't hear a thing until the drugs run out
Yeah, well I don't see my friends until the sun goes down

I don't hear a thing until the drugs run out

And all I care
Someone I don't ever want to miss
And all I care
Someone I don't ever want to miss
And you're moving around
And all these neon lights
And all these neon lights
Someone I don't ever want to miss

I'm wanderin' out there alone
I got that feeling of love
Yeah, starts went over me
Tossed beside my feet
Yeah, well what a place to be
(I said, yeah)

I don't see my friends until the sun goes down
I don't hear a thing until the drugs run out
Yeah, well I don't see my friends until the sun goes down
I don't hear a thing until the drugs run out

And all I care

Someone I don't ever want to miss
And all I care
Someone I don't ever want to miss
And you're moving around
And all these neon lights
And all these neon lights
Someone I don't ever want to miss
