

Heavy

Lydia

And a standby flight we ain't makin'
And the taillights cover the pavement
Tie your shirt above your waist
In your baggy sweater phase
Said you love the color change
But I found you drunk on the floor

You're heavy on me, heavy on me
Heavy on me, heavy on me
Now that's two nights fantastic
City we saw through the backseat
You're heavy on me, heavy on me
Heavy on me, heavy on me
Was thinkin' that sky looks like madness
So we got two nights fantastic
(So we got)

So don't catch a nerve, baby
Said a couple of songs changed me
And they don't tell you when you die
Every year you're movin' right
So how you gonna catch a fad?

You're heavy on me, heavy on me
Heavy on me, heavy on me
Now that's two nights fantastic
City we saw through the backseat
You're heavy on me, heavy on me
Heavy on me, heavy on me
Was thinkin' that sky looks like madness
So we got two nights fantastic

See a sunrise before you speak
God damn, I couldn't breathe
Yeah I'm scared what I'm gonna do
When it rains, I been seein' you
Sunrise before you speak
God damn, I couldn't breathe
And the days never really move
When it rains, I been seein' you
Sunrise before you speak
God damn, you know it's me
Goin' to what you love to
Goin' to what you love
Sunrise before you speak
God damn, you know it's me
Goin' to what you love to
Goin' to what you love

You're heavy on me, heavy on me
Heavy on me, heavy on me
That's two nights fantastic
City we saw through the backseat
