

Way You Want It

Lydia

Pretty people out there on the moon
Does it feel like you want it to?
So how's it start?
A couple scars, tell me 'bout it
Something real, you're holding still
Yeah, I want to feel it

Two days, we were somewhere in the sky
World sleeps, no one ever plans to die
Round here, I can hear them yellin' now
I ain't making a sound

Diamonds on your chest piece
Watch you like you won't scream
Ain't that the way you want it though?
Ain't that the way you want it though?

Free yourself, go on free your friends
Heard that beat it will never end
The song it plays, the people stay, tell me 'bout it
You something real, you're holding still
Yeah, I want to feel it

Home cut, right under your jeans

Who cares, want to wake up near the sea
I know, oh baby please

Diamonds on your chest piece
Watch you like you won't scream
Ain't that the way you want it though?
Ain't that the way you want it though?
Diamonds on your chest piece
Watch you like you won't scream
Ain't that the way you want it though?
Ain't that the way you want it though?
...

Diamonds on your chest piece
Watch you like you won't scream
Ain't that the way you want it though?
Ain't that the way you want it though?
Diamonds on your chest piece
Watch you like you won't scream
Ain't that the way you want it though?
Ain't that the way you want it though?
