

We'll Never Die

Lydia

Alright, so I met her in the winter back in '99
Riding in the back of some truck at night (yea)
She caught me looking up into that black sky
She goes, "if you hold your breath and close your eyes."
Hey hey hey
Hey hey hey

If you see my face in the sky at night
Singing you these words I tried to hide
Yeah, we'll never die (hey hey hey)
Oh, we'll never die (hey hey hey)

I was playing my guitar just to see your face
While you were burning up some shit in the fireplace, hey
You caught me looking at you like a paper doll
But you were looking so damn good, so good girl
Hey hey hey
Hey hey hey

If you see my face in the sky at night
Singing you these words I tried to hide
Yeah, we'll never die (hey hey hey)
Oh, we'll never die (hey hey hey)

Hey hey hey (we'll never die)
Hey hey hey

(If you see) If you see my face in the sky at night
Singing you these words I tried to hide
Yeah, we'll never die (hey hey hey)
Oh, we'll never die (hey hey hey)
We'll never die
Hey hey hey
Hey hey hey
