

When It Gets Dark Out

Lydia

So, when it feels good and you can fall asleep
and when the words come and pouring through your teeth
and all I need is a couple of people beside me
and all I see it's a big old world out there, are you coming with me?

yeah outside them walls been watching us move
yeah outside them branches, got them moving too
cuz when it gets dark out (dark out)
you're laughing like you do
cuz when it gets dark out (dark out)
cuz we don't know how sure we are doing
and we're going down, yeah, we going soon
and we're going down, yeah, we going soon
and you wake up cuz she don't ever sleep
and we're still switching at the seams
and all I need - there's a couple of these places we ought to be
and all I see - it's a big old world out there, and we gonna run free

yeah outside them walls been watching us move
yeah outside them branches, got them moving too
cuz when it gets dark out (dark out)
and you're laughing like you do
cuz when it gets dark out (dark out)
cuz we don't know how sure we are doing
and we're going down, yeah, we going soon
and we're going down, yeah, we going soon
I taste the ocean on my tongue
I feel the waters on my lungs
I saw the planes and where you run
right back, back there at home
I taste the ocean on my tongue
I feel the waters on my lungs
I saw the planes and where you run
right back, back there at home
yeah outside them walls been watching us move
yeah outside them branches, got them moving too
cuz when it gets dark out (dark out)
you're laughing like you do
cuz when it gets dark out (dark out)
cuz we don't know how sure we are doing
and we're going down, yeah, we going soon
and we're going down, yeah, we going soon
and we're going down, yeah, we going soon
