

I Am

Lyfe Jennings

Everything come in 3's
In the beginning there was the word
The word went that far, because the word we started
And what we have is nothing but the faith the worries
Reality for me is just a formality

Snegle in the building
What you thinkin bout most is what you create
Thoughts transform into things by repetition
If you forget some problem
You bring problems to the outcome
If you focus on the conclusion
You create the solution

Watch the words you say
'Cause the angels follow your direction
(I'm beautiful, I'm successful
I'm worthy of being loved)
The reason why you pray
Is to confirm that you receive your blessing
(Those who have faith as we're here)

I think, therefore I am
Therefore I can create the best for me
Change my thoughts and change my destiny
I think, therefore I am
Therefore I can see the world for what it is
We create the lives we live

There's a word that's about nation squeezed into shapes
Triangles, squares and circles glued into place
But what you consider magical
And what you believe is possible
Things will get you to the obstacle
But God gets you over

Watch the words you say
'Cause the angels follow your direction
(I'm beautiful, I'm successful
I'm worthy of being loved)
The reason why you pray
Is to confirm that you receive your blessing
(Those who have faith as we're here)

I think, therefore I am
Therefore I can create the best for me
Change my thoughts and change my destiny
I think, therefore I am
Therefore I can see the world for what it is
We create the lives we live

Don't change your mind
Let the clock change it's time
Don't be a bird that's afraid of heights
Your happiness is just a thought away
It's the secret of existence
The universe could be my witness

I think, therefore I am
Therefore I can create the best for me
Change my thoughts and change my destiny
I think, therefore I am
Therefore I can see the world for what it is
We create the lives we live

I am
I can
I think
I am
