

5D

Lykke Li

And I wake up on my
And I wake up on my own
With a little sun outside you decide
The dream I'll never sow

You're a true night butterfly
Is it true boys never cry?
With a little sun outside you were mine
But it was never set in stone

Is it only in the movie
You love me
5D?
Is it only in the movies?
On my screen?
In my dream?

Daydreaming's not enough
I'm waking up
Is there anywhere we could be
5D?

Now I'm in my bed I feel the weight
Are we ever gonna levitate?
Are we the kind to rise and fade?

Is this the part I'm gonna play
Where I stay and you run away?
Done one too many takes, no

Is it only in the movie
You love me
In 5D?
Is it only in the movies?
On my screen?
In my dream?

Daydreaming's not enough
I'm waking up
Is there anywhere we could be
5D?

5D, 5D
Is there anywhere
5D?
Somewhere, somewhere
It's every night and every eye
Somewhere

Is it only in the movie
You love me
In 5D?
Is it only in the movies?
On my screen?
In my dream?

Daydreaming's not enough

I'm waking up
Is there anywhere we could be
5D?
