

## I Never Learn

Lykke Li

Where the blue moon shines  
Where the tears melt ice  
In a sea of guilt  
By the fallen stars  
Lonely chimes, sing of pain  
There's a storm, only love remains

I've been stung by a star seed honey  
He shone love like a lightning honey  
I been hit by a star seed honey  
His love burns like a lightning honey  
I'm right here I'm your star crossed lover  
I lie here like a starless lover  
I'll die here as your phantom lover  
I never learn, I never learn
