Lykke Li

I never love half-hearted  
I'm down to get bruised  
Who's gonna let go hardest?  
We fight and we lose  
I got another round, another round in me, yeah  
Knock me out, knock me down, I don't care  
Who's gonna love you hardest?  
I'll do till I'm blue

Neon, neon  
When the lights go low, when the lights go low  
Neon, neon  
In the nights we glow, we glow  
I'd rather cry all night, night, night  
Then let the feeling die, die, die  
Neon, neon, neon  
I'm still holding on, neon

We kiss better in darkness  
We drown out the light  
I don't know where we started  
When you became mine  
We got another another round, another round in it, yeah  
We got time, we got time, yeah yeah  
Don't want to end this party  
I want to stay till it's blue

Neon, neon  
When the lights go low, when the lights go low  
Neon, neon  
In the nights we glow, we glow  
I'd rather cry all night, night, night  
Then let the feeling die, die, die  
Neon, neon, neon  
I'm still holding on, neon

(Neon, neon, neon)  
(I'm still holding on, neon)  
Neon  
Neon  
Neon

Don't let the color dim, dim away  
Don't let the color dim, dim away  
Don't let the color dim, dim away  
Don't let the color dim, dim away

Neon, neon  
When the lights go low, when the lights go low  
Neon, neon  
In the nights we glow, we glow  
I'd rather cry all night, night, night  
Then let the feeling die, die, die  
Neon, neon, neon  
I'm still holding on, neon  
Neon, neon, neon  
I'm still holding on, neon

Neon, neon, neon  
I'm still holding on, neon
