

## The Only

Lykke Li

Don't stand by my window.  
Don't knock on my door.  
Don't ever enter my chamber.  
Don't you bother comin' by anymore.

Leave me alone with my fever.  
Leave me alone with my  
Leave me alone where you left me.  
Leave me alone with my wound.

They won't let me go, no.  
They can't let me out, no.  
They won't let me walk, no.  
And I'm not the only,  
They can't let us go, no.  
They won't let me out, no.

And don't chase a life that is leaving.  
Don't chase a life that is lost.  
Say on you side "I got reason  
To be alone with my wound."

They won't let me go, no.  
They can't let me out, no.  
They won't let me walk, no.  
And I'm not the only,  
They can't let us go, no.  
They won't let me out, no. (2x)

I'm staying seventeen  
It's all I'll ever be  
It's all I ever known  
Forever seventeen  
My heart is on my sleeve  
All I ever known
