

Comatose

Lyn Lapid

Ask me why I fall asleep at 7:30
Hours I'd scream for relief
But no one heard me
I'm happier dreamin'
'Cause nothin's ever real and
Don't you know you can't be sad if you're busy sleepin'?

You say it's unhealthy, now you're worried?
Comatose, the only time that you can't hurt me

Don't get caught
Caught in the web that I weave
Shut 'em off
All thoughts are coming for me (Yeah, they're coming for me)
Built in our biology
Maybe we'll never be free
Aren't we all refugees running from crippling reality?

You say it's unhealthy, now you're worried?
Comatose, the only time that you can't hurt me
Captive in my reverie, don't disturb me
Comatose, the only time that you can't hurt me
