

# Cruise Control

Lyn Lapid

This year's moving light speed  
I fear that I might be  
Spiraling with my foot down  
Somebody cut the brakes now  
Time flies out the window  
I cling to the echo  
Wondering where you're headed  
Everywhere but the present

I'm lost in living  
In tunnel vision  
Don't know my limits  
So I  
Keep on hitting cruise control  
Busy going nowhere slow  
Stuck inside my own mind  
Watching life from the outside in overdrive  
Scared I'm gonna lose control  
Stranger living in my bones  
Turning off the headlights  
Take a ride to the dark side in overdrive  
Keep on hitting cruise control

My thoughts on a landslide  
Two feet on a fault line  
Wondering why I'm shaking  
How did I get so complacent?

I'm lost in living  
In tunnel vision  
Don't know my limits  
So I  
Keep on hitting cruise control  
Busy going nowhere slow  
Stuck inside my own mind  
Watching life from the outside in overdrive  
Scared I'm gonna lose control  
Stranger living in my bones  
Turning off the headlights  
Take a ride to the dark side in overdrive  
Keep on hitting cruise control
