

## forecast

Lyn Lapid

Can we draw the shades I'm  
Worried 'bout you lately  
Can we move somethin'?  
Can we do somethin', please?  
Your smile's lost the edges  
Your eyes are empty sketches  
You say you're tryin' (You're not)  
You're hidin'  
Pull the covers like they're ten thousand pounds holdin' you do  
wn  
Teardrops turn to oceans so deep you could drown  
Sink or swim, I'm jumpin' in and I'll pull you out  
I won't let you down

I wish I could help change the forecast  
It's been rainin' in your head  
You've been hangin' by a thread  
If it breaks, I'll be there when you need  
I miss you, I wish you'd come back to me

4 a.m., you toss and  
Turn, I see you're hurtin'  
You're capsizin', laugh-cryin', ask why you  
Can't find answers you've been lookin' for  
Head and heart are in a civil war  
And I can't watch you do this anymore

I wish I could help change the forecast  
It's been rainin' in your head  
You've been hangin' by a thread  
If it breaks, I'll be there when you need  
I miss you, I wish you'd come back to me

I wish you'd come back to me (Come back to me)  
I wish you'd come back to me

I wish that somebody would say that to me
