

ok with it

Lyn Lapid

We live in other dimensions
We both saw it coming

We used to sleep by our mobiles
Now we're barely calling

I haven't worried about where you've been
Who you've been talking with
We're growing dissonant
Finish line's imminent and
Inevitably, you'll surely forget me

It's the end and I'm ok with it
Seasons shift
They're always changin' and
We'll be sad
Through the summer
Start again with different lovers

Know the thought can be menacing
Waking up when you're not next to me
It's for the best
We've been cavin'
It's the end and I'm ok with it
And I'm ok with it

We could be living like one day we'll be reunited
And promise that we'll stay in touch
But we know we'd be lyin'
Why be at odds with our sanity
By arguing with reality?

It's the end and I'm ok with it
Seasons shift
They're always changin' and
We'll be sad
Through the summer
Start again with different lovers

Know the thought can be menacing
Waking up when you're not next to me
It's for the best
We've been cavin'
It's the end and I'm ok with it

And I'm ok with it
And I'm ok with it
And I'm ok with it
