

How's the air up there?
You're looking down on what I'm doing
Is it amusing?
Does it seem unfair I'm doing everything but losing?
Must be ego-bruising

We could be here all night with you giving me
Unsolicited advice, overt honesty
Talking is exhausting
If you want, here's an option

If you got a problem with me
I can hear about it later
You can send it to my pager
Tell me what you think about me
I'll get back to you later
You'll be doing me a favor
Send it to my pager

Remember how you thought in September
That you had future vision?
Mocking my decisions
You reckoned I'd be learning my lesson
Now you're begging for my attention
Good thing I never listened, oh, is it?

We could be here all night with you giving me
Unsolicited advice, overt honesty
Talking is exhausting
If you want, here's an option

If you got a problem with me
I can hear about it later
You can send it to my pager (You can send it to my pager)
Tell me what you think about me
I'll get back to you later
You'll be doing me a favor
Send it to my pager

Your toxicity (Hey, yeah)
Wasn't meant for me (Oh)
Your toxicity
Wasn't meant for me
Your toxicity wasn't meant for me
Your toxicity wasn't meant for me
Your toxicity wasn't meant for me
Your toxicity-
Send it to my pager
