

pick your brain

Lyn Lapid

You kiss me on the forehead
In the hall of your apartment
Feel so high
I swear I see the world inside your eyes
I wonder what you see in mine
Wide awake at night

Say I'm all you need
I live in your head
I'm the one to keep
Cuz I'm different
Don't you go away
I may sound insane but
Can I pick your brain

When the sun goes down
And when I'm not around
I wanna know
Am I the last thought that you were thinking
Before you're sleepin'
Are you gonna change my life
Are you gonna waste all my time
I wanna know
Your ploy cuz boy you got me believing
I must have met you for a reason

The way you call me darlin'
While you hold me in your arms
And suddenly we're in your car
We're driving through a city to get lost in
Who knows, what's gonna happen
At this point I've lost all my logic
I'd just love to live in your pocket

When the sun goes down
And when I'm not around
I wanna know
Am I the last thought that you were thinking
Before you're sleepin'
Are you gonna change my life?
Are you gonna waste all my time?
I wanna know
Your ploy cuz boy you got me believing
I must have met you for a reason

Feed all of my delusions
Even for your amusement
I have nothing to lose in
In the deep end, I'm in the deep end

When the sun goes down
And when I'm not around
I wanna know
Am I the last thought that you were thinking
Before you're sleepin'
Are you gonna change my life?
Are you gonna waste all my time?

I wanna know
Your ploy cuz boy you got me believing
I must have met you for a reason
