

# the alternative

Lyn Lapid

Every car I get into could crash  
But, oh man, do I love going fast  
There's a chance that this plane's going down  
But I don't wanna stay on the ground  
Since I found myself another half  
Part of me says don't get too attached  
What if time's gonna number our days  
Guess my heart's gonna break either way

Love is a risk  
But what's the alternative  
Maybe sleeping at night all alone  
Going it all on my own  
Life is a risk  
But what's the alternative  
When the planet keeps spinning around  
I'd be somewhere missing out

Life is short, things could change in a blink  
Every time I jump in I might sink  
But what better way to learn how to swim  
So screw it, I'm diving back in

Love is a risk  
But what's the alternative  
Maybe sleeping at night all alone  
Going it all on my own  
Life is a risk  
But what's the alternative  
When the planet keeps spinning around  
I'd be somewhere missing out

There's some days I can't believe you're really gone  
It's tempting me to  
Build a fort out of our sheets to stay inside and never leave

Love is a risk  
But what's the alternative  
Maybe sleeping at night all alone  
Going it all on my own  
Life is a risk  
But what's the alternative  
When the planet keeps spinning around  
I'd be somewhere missing out

What's the alternative
