

## Erase

Lynch Mob

Take all the scars  
Can't put the past away  
Paint it with your heart  
Can't take you down today  
Where things have to go  
Use my eyes to see  
See it in my my mind  
I had to watch it bleed

My mind my memories  
The things that I will understand  
This soul land what I breathe  
Believing I know

And I'll take control grips around my throat  
They won't hold me anymore  
Take back my life find wings to fly  
It's in my blood you cannot erase  
You'll never erase

See what they are  
And burn it down in flames  
Painting wicked hearts  
They tried to make you change  
Can you hear it scream  
It's my reality  
This is everything  
Every part of me

My mind my memories  
The things that I will understand  
This soul land that I breathe  
Believing I know

And I'll take control grips around my throat  
They won't hold me anymore  
Take back my life find wings to fly  
It's in my blood you'll never erase

Under earth and seas  
I'm locked in my dreams  
My darkening thoughts  
On a path I can't erase

Take all the scars can't put the past away  
Painting wicked hearts  
Painting wicked hearts  
I will rise above I will rise again  
I will rise above no I won't fear the end  
I won't fear the end you can't fear the end  
No you can't fear the end

And I'll take control grips around my throat  
They won't hold me anymore  
Take back my life find wings to fly  
It's in my blood you'll never erase  
You'll never erase
