

Machine Bone

Lynch Mob

You know I'll beg
You know I'll bleed
Girl don't you know that
You just got what I need
Just a little taste just a little tease
A little bit of everything
I'm down on my knees

Take my hand riding my machine bone
Take my hand riding my machine bone

If you got the time to hear what I say
I sure don't mind you don't have to stay
If you're looking for trouble
Just come my way
Cause I'll make you scream all night
And sleep all day

Take my hand riding my machine bone
Take my hand riding my machine bone

Just step inside can't take it anymore

Take my hand riding my machine bone
