

# INFERIORITY COMPLEX

lynch.

Shutdown in it  
Shut my eyes only once

Brought me  
Back up for nothing yet

Make it bleed  
I will not ever quit I cause the need lying my bed

I know this much pretending what was had is gone somewhere  
Now here I stand for nothing  
No one, no one, no one at all  
I've been struggling only to just keep myself alive

Fuck off

Just close my eyes  
Walk with an impure mind

I've gone  
Too far too soon you look

So what ?  
You look so seamless now, take me, take me, take my life

Make them listen one more time I've seen it turn from white to red  
It's just a matter of time but nothing ever changed  
And I've heard you talk about how you bleed

So you can change that way  
The lights have faded and  
I can't deny this place ain't got no heart  
I feel there's nothing that I can do

So you can change that way  
The lights have faded and  
I can't deny this place ain't got no heart  
I feel there's nothing that I can do

Get back  
I don't wanna do it

Watch it go  
Do this shit

I know this much  
Nothing gets easier gets

Get back  
I don't wanna do it

Watch it go  
Do this shit

I know this much  
Nothing gets easier gets

So you can change that way  
The lights have faded and  
I can't deny this place ain't got no heart  
I feel there's nothing that I can do

So you can change that way  
The lights have faded and  
I can't deny this place ain't got no heart  
I feel there's nothing that I can do

I feel there's nothing that I can do
