

NIGHT

lynch.

The night comes down from the sky, blackening this whole world.
It seems just like us.
Wear the darkness, sing it out... our lives.

Are you fuckin' ready?
Wake up now, the time has come.
Give your hands to me right now.
The sun goes down, the day is over.
The night will never ever end.

The night comes down from the sky, blackening this whole world.
Into the blackest night, blackest night of all.
The night comes down from the sky, blackening this whole world.
It seems just like us.
Wear the darkness, sing it out...our lives.
