

# Mama Spank

Lynn Anderson

When the big hand is on twelve and the little hand's on six  
You come home tonight and no more childish pranks  
You come home from work real quick or your mama get a stick  
Yes your mama get a stick and mama spank

Every night you don't come home from the way you're out alone  
Who would ever think that you're a married man  
I would guess your age to be twenty eight going on three  
So I'll speak in a language you can understand  
When the big hand is on twelve...

Yes I know you like to play but we've got our bills to pay  
And the kids need shoes much more than you need fun  
Up to now I've been too mild you've been acting like a child  
So I'll have to just start treating you like one  
When the big hand is on twelve...
