

All Me

Lyrica Anderson

He told me, he don't like to party, party
I told him, pull up to the lobby
Yeah, I just wanna catch a vibe, catch a vibe with you
Valet pulling up outside, come ride with me (with me)
Just a little conversation, you know what's up
Keep doing things you do, never change up
And we do the things we do, keep it on a low, yeah
And you don't need to hit me up, stay on call, yeah

You ain't never gotta ask, for you I just do it
You're one of a kind and I ain't never tryna lose you
When they asking who that is, yeah, it's all me
It's all me, yeah, it's all me

He gon' pull on me, wine and dine, it's all me
Put her in some Balmain designer, it's all me
Know I like it country, babe, you know it's all me
Hit me when you want it, baby, call me
You don't have to worry, it's on me
Yeah, I know you're worth it, it's on me
You ain't far from perfect
'Cause what's yours is mine, baby, oh yeah, it's all me

Fuck spendin' your money on me
Balmain, Supreme, Louis, Birkin bags, slippers Versace
Drop the top, we Gucci shinin', girl, look at your rings
100k, I don't care, fuck the bill, yeah, I'm payin' for it
They try to say that chivalry's dead
Babe, you ain't gotta wear no make-up for me, yeah
All you gotta do is make love to me, yeah
Don't want you spendin' all your money, you ain't gotta be perfect, yeah

You ain't never gotta ask, for you I just do it
You're one of a kind and I ain't never tryna lose you
When they asking who that is, yeah, it's all me
It's all me, yeah, it's all me

He gon' pull on me, wine and dine, it's all me (yeah)
Put her in some Balmain designer, it's all me (oh, woah)
Know I like it country, babe, you know it's all me (oh, woah)
Hit me when you want it, baby, call me
You don't have to worry, it's on me (you don't have to worry)
Yeah, I know you're worth it, it's on me (I know you're worth it)
You ain't far from perfect
'Cause what's yours is mine, baby, oh yeah, it's all me (baby)
He gon' pull on me, wine and dine, it's all me (he gon' pull on me, wine and
dine, it's all me, yeah)
Put her in some Balmain designer, it's all me (pull up, pull up, oh yeah)
Know I like it country, babe, you know it's all me (yeah)
Hit me when you want it, baby, call me, yeah
You don't have to worry, it's on me (you don't have to worry, on me)
Yeah, I know you're worth it, it's on me (I know you're worth it)
You ain't far from perfect (nah)
'Cause what's yours is mine, baby, oh yeah, it's all me

Yeah, me, me, me, me, me
It's on me

Me, me, me, me, me
On me, it's on me
