

Brain

Lyrical Anderson

You could be all mine, all mine
You could be all mine, all mine
You could be all mine
If you don't think with your dick
Simple as it is, just use your brain
Just use your brain
It's very simple, baby, you don't have to
Think that hard, it's wonderful to just use your brain
You ain't gotta say too much, just use your brain
You ain't gotta use your touch, just use your brain
Just use your brain

Talk to me, entice me
Say some things enlightening
Make me wet without touching me
Stimulate my head and just talk to me
Can I trust that you're all about me
And only me, only me?
Doesn't matter who it be in the room
You make wise decisions
You won't be that stupid, I should steal all your attention

You could be all mine, all mine
You could be all mine, all mine
You could be all mine
If you don't think with your dick
Simple as it is, just use your brain
Just use your brain
It's very simple, baby, you don't have to
Think that hard, it's wonderful to just use your brain
You ain't gotta say too much, just use your brain
You ain't gotta use your touch, just use your brain
Just use your brain
