

# Ghost

Lyrica Anderson

I can't get too excited  
We get close then something divided  
From talking everyday and barely replying ah  
How do we expect to make it  
If we don't put the time in ohh

So this time I'm saying  
Don't you just up and leave  
Don't you give up on me  
I didn't mean to cheat  
Every good thing takes  
Some time to be  
So don't go ghost on me

I can tell now I'm not perfect  
And it may take awhile for you to learn me  
And let's not act like you didn't hurt me  
Girls in my DM  
Say you're fucking them, no no

Why you gotta do me like that  
Have me feeling like I ain't jack, oooh  
Fussing and fighting  
We getting violent  
Scratches on me and  
I can't even hide it  
Get your shit get out of my face  
Blaming me for all your mistakes  
Now you got me want to get back  
Playing this game called tic for tac

Don't you just up and leave  
Don't you give up on me  
I didn't mean to cheat  
Every good thing takes  
Some time to be  
So don't go ghost on me

Ohh ohh ohh ohh...
