

## Girls Have Fun Interlude

Lyrica Anderson

That's what's up  
How you sayin' that's what's up?  
How you better than me?  
You came back home and I tried to work it out  
Stop looking for somebody to point the finger at  
And point it at yourself, because  
You're emotionally detached  
You make me feel abandoned  
You don't make me feel special anymore  
And I can't be with you  
That's how you feel?  
Yeah, I can't, that hurt me too bad
