

Ok I get it
You need space now
You need time now
Just to process
Share my soul with you
Something like a fool
How you soon forget
I fucked up with you
Barely know this dude
Was it all pretend?
Was it all pretend?

Did you love me like you said?
Or was it for the bedroom?
8 a.m. break up text
Now you all on The Shade Room
I don't gotta sit and take it
When you come home you gonna see
It's vacant like you did my patience
Blowin' my phone where is your son

He's straight, I'm straight, we straight
(No you can't come over)
He good I'm good we gon' be good

All your talk is cheap (blah)
Imma stay here at the Marriott
Miss me with your shit (yah)
Imma be here at the Marriott
I don't want you here (nah)
You can't come to the Marriott (ooh)
You made your bed, so sleep in it

Now I'm just tryna keep busy
Cuz you ain't with me
Now this new nigga just hit me
I cannot lie I feel lonely
He wanna hold me
You know how I get when I'm horny
Over here thinking
How you been out creepin'
Why should I be an angel for a demon
(Spare it)
Swear he gon get her
Said if he had me he would never leave me alone
Never would cheat no no no

Did you love me like you said? (Do you)
Or was it for the bedroom? (Yeah yeah yeah)
