

# Mixtape

Lyrica Anderson

I got something for you

Blank CD, I wrote in-cursive with a red sharpie  
And put in all that after track 13  
I really want it to be perfect, this is for your ears only  
I hope that beat's in mint condition and it doesn't skip skip skip  
A letter might have been a waste of time  
This is a better way to finally say what's been on my mind

You're the top of my playlist and it's so hard to say this  
But I know it's the safest way to tell ya  
So I went through my catalogue and I search for the right song  
And these ones make me think of you

Boy, I made you this mixtape  
Turn it on, put it on replay  
Pick a song, pick a song  
Hit me up when you get it  
Baby, it's how I'm feeling  
Think of me while you listen and bump it all night  
Boy, I made you this mixtape  
Turn it on, put it on replay  
Pick a song, pick a song  
Hit me up when you get it  
Baby, it's how I'm feeling  
Think of me while you listen and bump it all night

Pump it up, pump it up  
Baby, turn it loud  
Turn it up, turn it up  
I love to hear the sound  
Pump it up, pump it up  
How you like it now? Turn it up

Set the mood  
Want you to feel it just the way I do  
Baby, go and get your beats by Dre  
This is the soundtrack to the way my heart communicates

You're the top of my playlist and it's so hard to say this  
But I know it's the safest way to tell ya  
Baby, this is how I do, I do...

Made you this mixtape

Baby, it's how I'm feeling  
Think of me while you listen and bump it all night
