

Notice Me

Lyrical Anderson

You said, I've been acting strange lately
What's been on your brain, baby?
Things ain't been the same lately
Truth is, that you stayed (You stayed)

Causing all this pain, baby (Baby)
You the one I blame, crazy (Crazy)
Should've never stayed, babe
I want you to know
Anything I do for you, I do for us
I just need trust, ooh
Baby, yeah, something tells me I should let go
I can't front, I don't ask for much (Notice me)

Notice me, love on me
Care for me, that's all I ever ask for
Love on me, touch on me
Notice me, that's all I ever ask for

Send 'em in, want you to come through
Ignoring calls, sayin' it didn't come through
I'm a bad bitch, you lucky fuck
Tell me how this adding up, ooh
Tell me why you switching up (Up)
