

# Real Love

Lyrica Anderson

Bust it down, drink it up  
Eat those things that you like  
When we love, gave you all of me  
I had to learn my place  
Love you but give you space  
'Cause you don't, you don't wanna get caught up

I swear I needed you, I was sure  
Blindsided when you gave it all to her  
I was a fool, you said I do, yeah-yeah  
Still you ask me not to leave

Why you keep doin' that  
Why you keep doin' that  
Keep on livin' a lie  
Kiss another goodnight  
When you know I'm thinkin' bout you  
Don't know what to trust  
Got me wishin' it was us  
I'm falling out of love  
Sick and tired of it all

I just want real love, don't need too much  
All that I want is, is real love  
Night till the morning  
All that we ask for, is real love  
No compromise  
We spend our time  
Searchin' for real love

Oh, tell me what would you do  
If it were you  
Watchin' a man take my hand  
Watching me give it all to him  
Tell me, how does it feel  
Just keep it real  
Is this not how you saw,  
Happily ever after?

All that you wanted I'd given up  
You made me feel like it was not enough  
You were a fool  
You said I do, yeah  
Now you claim you missin' me, yeah

Why you keep doin' that  
Why you keep doin' that  
Keep on livin' a lie  
Kiss another goodnight  
When you know I'm thinkin' bout you  
Don't know what to trust  
Got me wishin' it was us  
I'm falling out of love  
Sick and tired of it all

I just want real love, don't need too much  
All that I want is, is real love

Night till the morning  
All that we ask for, is real love  
No compromise  
We spend our time  
Searchin' for real love  
Searchin' for real love  
Searchin'  
Searchin' for real love  
Searchin' for real love  
Searchin' for real love
