

Look

It's either you with me or you not, no in-between
I used to need you but now bitches need a drink
A bitch just need to think, ping my old fling, and link
Had to tell him bye, bye, bye, we ain't never been in sync
Used to hit it on the sink, in my kidney, off the bean
I gave your ass the world and showed you shit you'd never seen
But you ain't appreciate it
You came stressed and left alleviated
You came broke and then left fixed, that shit is crazy, ain't it?
I don't rent, I own, I don't kid, I'm grown
'Fore I fuck another nigga, I'll admit, I'm gone
I don't pick, get both, I don't spit or choke
You gon' think 'bout me forever, welcome to Death Row, nigga

I wish I could unlove you
Fuck that, I wish I could unfuck you
I really wish I never met you
This the last time I make a nigga feel special

You know you special
You act like I ain't changed a bitch since I met you
Some of us grow in different places, baby, cycle
How the fuck we fightin' in Majorca islands?
You turned into a stranger
I need to U-turn and come and get ya
Let's keep it lose, don't need to be extra
You want the truth but I'm not a confessor
Bumpin' Bound 2, going for a round two
How I'm feeling blue but I'm kinda not soon
Fuck what you thought but not what you've been through
Betrayal feel worse then a rib tattoo

I don't wanna love again
I don't wanna love again

Hit it raw dog, she say I'm raw, dawg
Where I come from, them other girls crawl
On a tight schedule, I'm shinin', celestial
6:00 am texts, so I made her feel special
Rockin' nylon
All them damn VVS's shinin' all on 'em
Make me bad, bad, she don't trip, I'm 'bout calls
Every time I'm with her, man, she make me feel gone

I wish I could unlove you
Fuck that, I wish I could unfuck you
I really wish I never met you
This the last time I make a nigga feel special
