

Blood Moon

M. Craft

When you come back again?
With your heart all aflame
Silver light in your hair

A million stars in the air
You feel the love everywhere
Waiting for you

Blood moon
Blood moon
Blood moon
Blood moon

Sing a song of our fate
Every bird on the way
Every voice in the choir
Sing of wind and of fire
Sing the stars and sing higher

Blood moon
Blood moon
Blood moon
Blood moon

[Instrumental]

In the palm of your hand
Draw a line in the sand
You make the maps of a mind
All the mountains we climbed
In the valleys of time
Waiting for you

Blood moon
Blood moon
Blood moon
Blood moon
