

Against The Rules

M Huncho

Huh

I got my cup, I got my juice
I paid my price, I paid my dues
I paid for boxes paper view
I got 2020 vision that's that Potter Payper view
And I'm smoking pots of green
You would love my point of view
When I was down I saw a blessing
And that's that different point of view

I roll one up outside Nobu, I got no social queues
In the ends im the whisperer put nitties in a queue
I've been on my Ps and Qs
All the P I spent on Qs
Now I drive a RS in the T like sugar cubes
I put all the weight on me but it really should be you
Now I'm getting W
Somethings are meant to be
Sometimes you can't pick and choose
(Sometimes you can't pick and choose)
When your destiny's to lose
You gotta go against the rules
(When your destiny's to lose you gotta go against the rules)
When your destiny's to lose
You gotta go against the rules

I spent 48 hours in Steve's and Gloria's
That's dark on the foil chasing euphorias
We really grew up in the streets, our mums was warriors
It really made us men
It really made them warriors
They say life is what you make it, this is my utopia
I'm really world wide, I know you wish I was localer
I heard you told your best friend you wish I was open up
But since you met me your wrist is all frozen up
Whose capping in there raps
Not Hunch, not P
And when I was going OT
That was months, not weeks
I know pots and stoves smoking pots of weed
I got likes and fans that's pots of green
I hope my neighbours don't know, i had hard to sell
But it's on me like a stain, so it ain't hard to tell
Alhamdulillah, I'm just playing with the cards I'm dealt
And if there's fire in my hand then I'ma blast a shell

When your destiny's to lose
You gotta go against the rules
(When your destiny's to lose you gotta go against the rules)
When your destiny's to lose
You gotta go against the rules
Yeah (You gotta go against the rules)

And this rap shit really went and put me in these rooms
And I'm match fit
I told my striker go and get my boots

The stuff these rappers do just to get a million views

A million views what's that?

I need 100 mill

I got chrome heart diamonds, wrist still chill

They pree from far but they ain't on drill

And this Gallery spill

And this AP spill

And this Roley

Uh

I'm still in recovery

Giving you a summary

I only fuck with brothers that I've know since dungarees

Shaded under money trees

Come and fuck with me

(Come and fuck with us)
