

Pee Pee

M Huncho

Back in full effect, baby
Yeah, we out here
Still grinding, hustling for too long
It's payday, fellas!
Yeah, yeah
Yeah, yeah

I've been hustling for too long
Hoping that it all pays off
Throw my foot down on the pedal
And trust me it goes off
Audemars wrist, order my shit, order some tea
If I said it wasn't me would you believe me
Bought a new whip so I cruise and watch the TV
Came a long way from the PC burning CD's
When I bust my nut I go and take a pee pee
Do a check up on my name go check my CV
These rappers really wanna be me, they can't be me
And I find it very creepy, ain't that creepy
I'm in this pussy and it's feeling very creamy
I have to leave her and this girl just don't want leave me

I face my challenges with faith, thinking when I catch a break
Save the kit I take a break to the base and now I'm safe
Gucci poncho like a cape, I'm a hero in this game
I ain't stopping for nobody, gotta catch another plane
Money really made a change, but money never change me
Nah, money never change me
Don't give in to any nonsense it's a trap
Walk in with a jiggy bop and a baseball cap
Got too high and now I'm stuck I can't come back
Yeah my fiend was James he didn't play for caps
In the trap I do not leave I just pack
Lately I've been very deep up in my bag
Pull my jeans up to my waist they used to sag
Big engine got me moving very wes
I got the type of girl that loves to stay at home
You got them type of hoes that love to buy a frappe
With their name on it just to snap
I ain't got time for that
All I know is trap
Pretty girls are traps

I've been hustling for too long
Hoping that it all pays off
Throw my foot down on the pedal
And trust me it goes off
Audemars wrist, order my shit, order some tea
If I said it wasn't me would you believe me
Bought a new whip so I cruise and watch the TV
Came a long way from the PC burning CD's

And I find it very creepy, ain't that creepy
I'm in this pussy and it's feeling very creamy
I have to leave her and this girl just don't want leave me

I'm in this studio trapping with ADP
Don't want talk about your change go check my feed
I told Joe and Johnny I need decent fee-fees
Do you love me so I ask her like she's Keke
Like she's Keke
Like she's Keke
Like she's Keke

I've been hustling for too long
Hoping that it all pays off
Throw my foot down on the pedal
And trust me it goes off
Audemars wrist, order my shit, order some tea
