M Huncho

And I hit rock bottom, and it was the best thing that ever happened to me  
And I got some veggies, got some carrots, and some broccoli that's just rolling with me  
The leather love affection I gave others, can't be thinking there is no guarantee, yeah  
That envy one is honest and I promise life ain't easy, so I'm trapping you see  
And my brother doesn't use one when it's time he likes to cook it in three's, yeah, he likes to cook it in three's (Has to cook it three's )
