

Thumb

M Huncho

Huncho I'm sitting in the car, getting dirty
When I fuck put my thumb up in her butt
One blow can the cops tell shawty
That it was never love, yeah
Everything was lust

You can't ever put me in a rush
I got 12 in the boot can't afford to get stopped
The tires tight with the plug
Made some money on the run
But we tie it like a knot
The house has already been booked
That's when I spend 5 figures on the rock
Changed my life for the best now
I'm jumping on the stage
And I'm feeling all the buzz

Do this for my fans, cause
They took me out the gutter
So I gotta do a tour and show love
It's funny how they used to sit and judge
Now they're doing nothing like bugs
I can't really be around bums
And I put my finger in her butt

When I fuck I put my finger in her butt
Then she suck it up like a slut now
She fucking like a thot
Play with that pussy, let me watch
I'm smoking when she give me good top
She said I get away before we touch now

I gotta run it up
The money get you anything you want
But she won't give you anything you want
Gotta get it gotta go, they can never understand
Never had nothing while you watching my back
Buying my son the shit I don't have
Got a new crib, hardly step in my gaff
Imma need the pack there as soon as I land
Staying with my niggas, staying out with my gang
She wanna come around she ain't telling her man
She don't leave the room when she got that plan

I can never understand you can't ever hate
If you aren't in the plan had to step up
Had to be a man got a bad jawn
And I can't be her man
Gotta get it gotta go, I can't ever
Bend I can't ever fold, thumb in her butt
While I hit it in the Rolls bags every week
Man I'm really on the, really on the road now
30 bags for the show wow
Orange signs for my crowbars
Upset when I'm sober

Cause I was sleeping on the sofa

Does she know we've come so far
Double figures like a gold bar
I just wanna get to know her, sip a little suttin a little suttin
In my cup I litty-o I getty litty lil mami she just
Wanna spend the whole night
But she know I gotta get the dough
Gotta get it lil mami East side smoking my loud
My marijuana said she wanna make a video
Now I'm taking my shots too hot
Too hot Imma dive in the pussy like a cheerio

Dive, huh was cloned
If I ever make a video
When I say it goes period hoe hit it
And I go cheerio gotta tell the truth
I ain't feeling you know
I ain't feeling you know
I ain't feeling you know bitch
I ain't feeling you-
